Steve Quinton

Welcome to our 7th Annual Bull Sale!

Here we are at a great time to be in the cattle industry - great cattle prices, with the outlook for even better prices in the future! NOW is the time to have the very best calves possible 'cause every pound is worth a lot!

This year's offering has something for everyone - but most importantly they will all add value to your breeding program and sire those Char X calves that will add those extra pounds and demand a top price!

We concentrate on raising bulls that are quiet and are curve benders with low birth weights and in the top of the breed for weaning and yearling weights.

On December 2 you will find ranch raised bulls for ranchers! Come spring we will deliver bulls when you want them, bulls that are hard and ready to get to work! That is our reputation and guarantee.

At Char-Maine Ranching we look after our customers and make sure that your cows get bred and guarantee our bulls 100%.

Plan to come early and inspect the bulls and have lunch on us at 12:00 noon. The bulls can always be appraised at the farm until November 30th when they will be moved to Ft. Macleod Auction.

The Brand

The "Triangle" that appears throughout the catalogue is actually our family brand that has been handed down through many generations. It is a symbol of the quality we have strived to achieve and the pride we feel in our herd.

870U was bred to our heifers and has provided great calving ease with only 2 assisted births. He is in the top 10% of the breed for calving ease, yet is above breed average for weaning and yearling.

His calves have great performance, are polled and will sire easy born calves with thickness and lots of hair that the order buyers will love.

8876U is a "curve bender" bull with low birth weight but in the top 1% of the breed for weaning and yearling weight.

8876U was put in to clean up our heifers after 870U got hurt, thus all his calves this year are out of 1st calf heifers where he has calved great with vigorous calves with great hair.

Absolute is one of the longest, thickest, quietest bulls I have ever owned. He is also in top 20% of the breed for weaning and yearling.

58U has done a nice job on his first calf crop, very quiet long bodied calves with that extra muscle.

This select group of coming 2 year olds was born June - August and are a nice set of slow grown bulls that have only received a grain ration the last two months and have been bucket fed to insure that they are quiet and easy to handle.

These "summer" bulls will be ready to do a great deal of work next season and are not picked over bulls!

They will be semen checked before the sale and ready to go home immediately after the sale. If you want to bring your trailer and take your bull home we will deduct \$100 / bull or we will deliver them to you before Christmas.

BORN UNASSISTED - These TWO YEAR OLD bulls
were born out in the pasture on grass during the summer
and thus were not weighed at birth;
however they did ALL come UNASSISTED.

Bulls on Test Awaiting Your Inspection!

The bulls are available at the ranch, 1.5 miles south of Cardston, for your viewing until November 30th at which time they will be moved to Southern Alberta Livestock Exchange and will be available there for your inspection up until sale time at 1:00, December 2, 2011.

Char-Maine Ranching - Black Charolais Yearling Bulls

Our Black Charolais bulls are years of breeding up and selection and culling. We focus on calving ease along with getting that extra muscle and bone to compliment the Angus cows.

The progressive ranchers who are using these bulls are reporting an extra 50 to 70 lbs. of weaning weight, and thickness that the buyers want. If you want that Black calf with thickness and extra weaning weight look no further!
